Welcome

Welcome to CELINA - Your Trusted Partner in Event Tenting

At CELINA, we understand the needs of event rental companies and manufacture high-quality, durable, and stylish tenting solutions to help you serve your clients with confidence. Whether you specialize in weddings, corporate events, festivals, or large-scale gatherings, our extensive range of tents is designed to meet the demands of the rental industry. With a focus on durability, ease of setup, and long-term reliability, our tents are built to withstand the rigors of frequent use while maintaining a professional and elegant appearance.

Browse our catalog to explore an extensive selection of frame tents, pole tents, rental equipment, and custom-branded solutions tailored for event professionals. We offer customizable options, replacement parts, and expert guidance to ensure your inventory remains versatile and profitable. At CELINA, we are more than just a supplier, we're a partner dedicated to helping your rental business succeed with premium tents that impress clients and stand the test of time. Let's build extraordinary events together!

CELINA Frame Tents

CELINA's Frame Tents provide a strong, adaptable, and professional shelter solution for a variety of events and commercial applications. Designed with durable aluminum or galvanized steel frames and high-quality vinyl canopies, these tents offer maximum interior space by eliminating center poles. From the versatile Classic Series to the elegant Pinnacle High Peak and heavy-duty Master Series, each tent is engineered for stability, weather resistance, and ease of setup. Whether for weddings, corporate functions, or long-term installations, CELINA's Frame Tents deliver a reliable, polished, and customizable shelter option.

Classic Series Frame (C06)

The Classic Series Frame Tent offers a sturdy and versatile solution for any event, combining durability with a clean, professional look. Built with a robust aluminum frame and no center poles, these tents provide maximum usable space. The modular design allows for easy setup and takedown, while high-quality vinyl canopies ensure long-lasting performance in various weather conditions. Available in multiple sizes, these frame tents deliver reliable coverage and a polished appearance for any occasion.

The Classic Series Frame Tent is easy to setup and proven to last in various weather conditions.

Ideal for weddings, corporate gatherings, and large events.

Classic Series Gable Frame Frame (C15)

Classic Series Gable Frame Tents combine the strength of a traditional frame tent with the added benefit of a gable-end design for enhanced stability and a distinctive look.

With no center poles, these tents provide an open, unobstructed space, making them ideal for events, commercial applications, and long-term installations. The durable aluminum frame and high-quality vinyl canopy ensure lasting performance in various weather conditions, while the gable-end structure offers increased interior height and improved airflow.

Available in multiple sizes, these tents deliver a professional, functional, and stylish shelter solution.

Master Series Frame (C07/ C16)

Master Series Frame Tents are designed for superior strength, longevity, and ease of use, making them a top choice for commercial and event applications. Featuring a heavy-duty aluminum frame with reinforced corners and fittings, these tents provide exceptional stability without the need for center poles, maximizing interior space. The high-quality vinyl canopy is built to withstand frequent use and varying weather conditions, ensuring reliable performance over time. Available in a variety of sizes, the Master Series offers a professional, durable, and versatile tenting solution for any occasion.

Master Series Frame

The Master Series Frame Tent features a durable frame with a tensioned valance for a sleek look. Its easy setup and open interior make it ideal for events and commercial use.

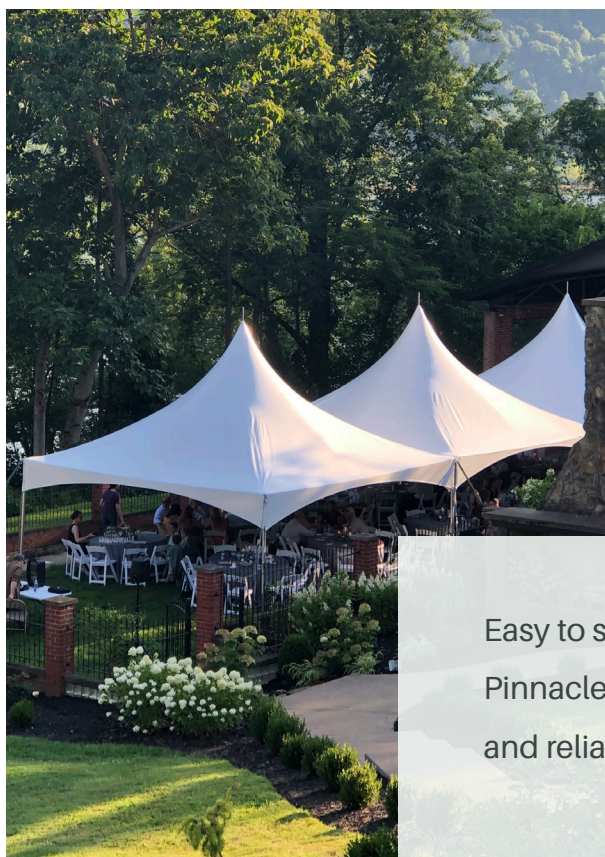

Master Series High Peak Frame

The Master Series High Peak Frame Tent adds a bold high peak design to the Master Series system. Its elegant look and quick setup make it perfect for upscale events.

Pinnacle Cross Cable High Peak Frame (C08)

Featuring a unique cross-cable design, these tents eliminate the need for interior poles while maintaining a high peak structure for a sophisticated look and improved stability.

CELINA's Pinnacle Series High Peak Frame Tents offer a striking combination of elegance and durability, making them a standout choice for weddings, corporate events, and upscale gatherings. The robust aluminum frame and premium vinyl canopy ensure long-lasting performance in various weather conditions.

Easy to set up and available in multiple sizes, the Pinnacle Series provides a professional, stylish, and reliable tenting solution for any event.

Humanitarian General Purpose Shelter (C14)

The Humanitarian General Purpose Shelter is a durable and versatile structure designed for rapid deployment in disaster relief, emergency response, and humanitarian aid efforts. Featuring a strong galvanized frame and a high-quality, weather-resistant vinyl cover, this shelter provides reliable protection in various climates. Its spacious, unobstructed interior allows for flexible use as a medical station, temporary housing, or command center. Easy to transport and set up, the Humanitarian General Purpose Shelter is built to meet the demands of critical response situations, ensuring safe and secure shelter when it's needed most.

With over 20,000 tents built, the Humanitarian Shelter has provided comfort to millions of people.

The shelter is uniquely packed in a waterproof container for ease of transport.

CELINA Pole Tents

CELINA's Pole Tents offer a versatile and durable solution for a wide range of events, from weddings and festivals to corporate gatherings and vendor spaces. Designed for reliability and ease of setup, these tents feature high-quality vinyl canopies and sturdy support structures, ensuring stability and weather resistance. With options ranging from the timeless Classic Series to the engineered Premiere II Series, each tent style provides a unique blend of elegance, strength, and practicality. Whether you need a lightweight canopy for quick assembly or a high-peak tent for a sophisticated look, CELINA's Pole Tents deliver professional, cost-effective shelter solutions tailored to any event setting.

Classic Series Pole (C04)

Classic Series Pole Tents provide a timeless and reliable shelter solution for weddings, festivals, corporate events, and more. Designed with a durable vinyl canopy and sturdy center and side poles, these tents offer excellent stability while creating a classic peaked appearance. Easy to transport and set up, they are ideal for both short-term and long-term use. Available in various sizes, the Classic Series Pole Tents deliver an elegant, weather-resistant, and cost-effective solution for any event setting.

Pole tents are a top choice for event rentals due to their simple setup, vibrant color options, and wide range of sizes.

Supported by center and side poles with a secure ratchet and staking system, these tents provide a reliable and visually appealing tent for any occasion.

Premiere I Series High Peak Pole (C10)

Premiere I Series High Peak Pole Tents combine elegance and durability, making them ideal for weddings, festivals, and upscale events. Featuring a striking high-peak design, these tents create a sophisticated look while providing excellent stability with their sturdy center and side poles. Constructed with a heavy-duty vinyl top, they offer reliable protection against the elements and withstand frequent use. Available in multiple sizes, the Premiere I Series delivers a professional, weather-resistant, and visually impressive tenting solution for any special occasion.

Make a lasting impression with the unique design of this tent and leave your guests stunned.

Expand the size of your tent to make your next event unforgettable.

Premiere II Series High Peak Pole (C11)

Premiere II Series Engineered High Peak Pole Tents offer a perfect blend of elegance, strength, and structural reliability.

Designed to meet stringent engineering standards, these high-peak tents provide superior stability for large-scale events, weddings, and corporate gatherings. Featuring a durable vinyl top and reinforced center and side poles, they withstand various weather conditions while maintaining a striking, sophisticated appearance.

Available in multiple sizes, the Premiere II Series delivers a professional, engineered tenting solution built for long-term performance and safety.

Presto Series Pole (C02)

The Presto Series Pole Canopy is a lightweight and economical tent solution designed for quick setup and reliable coverage.

OVER THE COUNTER —
CANOPY

Featuring a durable vinyl top supported by sturdy center and side poles, this canopy provides a classic peaked look while offering protection from the elements. Ideal for casual gatherings, vendor booths, and small events, the Presto Series is easy to transport and assemble, making it a convenient option for temporary outdoor use.

Available in multiple sizes, it delivers a cost-effective and practical shelter solution.

TP Series Hexagon Tent (C13)

The TP Series Hexagon Tent stands out with its high peak and distinctive canopy design, making it a striking option for promotional events, car dealerships, and high-visibility locations. Featuring a bold two-color design as standard, this tent naturally attracts attention and can also be custom printed with logos or branding. Its circular footprint of approximately 52 feet (16 meters) in diameter provides ample coverage, while the durable construction ensures long-lasting performance in various conditions.

A single 21-foot heavy-duty aluminum center pole supports the structure, reinforced by six standard 2" box ratchets with foot plates, six stake plates, and 12 double-headed stakes for secure anchoring.

TP Series Tent provides ample space for various applications while ensuring quick installation with minimal hardware. Custom printing options are available for branding and promotional needs.

Athens Utility Shelter (C18)

The Athens Utility shelter instantly expands from a compact bag into a full-size shelter allowing quick setup.

The Athens Utility Shelter is a durable and versatile shelter designed to provide reliable protection in various applications. Built with a sturdy fiberglass rod frame and a high-visibility, weather-resistant nylon cover, this shelter offers dependable coverage for workspaces and features an open bottom for protection over manholes or excavation sites.

Available in multiple sizes and colors, the Athens Utility Shelter delivers practical, all-weather protection for commercial, industrial, and personal use.

Fast Shade Pop Up Canopy (C01)

Fast Shade Pop-Up Canopies provide quick, convenient, and durable shelter for outdoor events, trade shows, and promotional setups. Designed for easy transport and rapid deployment, these canopies feature a sturdy, lightweight frame and a high-quality, weather-resistant top. The collapsible design allows for hassle-free setup and takedown, making them perfect for both temporary and frequent use. Available in multiple sizes and colors, the Fast Shade offers a professional and versatile solution for shade and branding needs.

Enhance functionality and branding with a range of available accessories, including backdrops, sidewalls, and rail skirts for added coverage, privacy, and visual appeal.

Custom printing packages are available to personalize the canopy with logos, graphics, or full-color designs, making it an excellent choice for promotions and brand visibility.

Custom Printing

CELINA's Custom Tents, Flags and Banners offer high-impact branding solutions for events, businesses, and promotional displays. Designed for durability and visibility, our custom-printed tents, feather flags, and banners help you showcase your brand with professional, eye-catching graphics. Using high-quality materials and vibrant printing, these products provide long-lasting exposure in outdoor and indoor settings. Whether for trade shows, corporate events, or outdoor markets, CELINA's customizable options ensure your brand stands out with style and reliability.

CUSTOMIZE

ACCESSORIES

Make your brand stand out with custom-printed event accessories. From branded vinyl walls to fully customized table covers, our high-quality printing ensures your logo and messaging shine at any event.

PROspan Fabric Structures (C12)

PROspan delivers unmatched performance through precision-engineering and high-quality materials. Designed for both durability and easy assembly, each structure combines strength and flexibility, making them ideal for a wide range of applications—from industrial uses and secure storage solutions to elegant event spaces at any scale. Explore our ready-to-ship selections for quick needs. Customized and fully bespoke structure designs available with a short lead time.

Built for professionals – The PROspan tent is engineered for durability and performance at every event.

Commercial-grade durability – Built to withstand frequent use and tough environments.

Crestline Truss Arch Fabric Shelter (C17)

Crestline Truss Arch Fabric Shelters provide durable, weather-resistant protection for equipment, vehicles, and workspaces.

Built with sturdy frames and heavy-duty covers, these structures offer reliable, long-term storage solutions for agricultural, commercial, and industrial applications. Designed for quick installation and maximum durability, they withstand harsh weather conditions while maintaining a functional and professional appearance.

Available in various sizes and styles, CELINA's storage shelters ensure secure and versatile coverage for all your outdoor storage needs.

CELINA Safety

Wind-Driven Rain Test Certification

CELINA tents are built to withstand tough conditions, including wind-driven rain at speeds up to 75 mph. Our products have been tested and certified to meet CELINA's custom wind specifications, with accreditation from the ANSI National Accreditation Board (ANAB) under ISO/IEC 17025:2017 (Certificate Number: AT-1787). After testing, a thorough inspection showed no external damage, confirming CELINA tents met all performance standards.

Flame Resistance Certification

CELINA tents, canopies, structures, and shelters are made with flame-resistant fabrics, ensuring safety and compliance with industry standards. Each product includes a "Tent Identification and Warning" label certifying its flame-resistant material.

Important: While CELINA fabrics are flame resistant or nonflammable, they are NOT fireproof. Open flames should never be used under any tent, canopy, structure, or shelter.

CELINA fabrics meet or exceed the following flammability standards:

NFPA-701	CPAI-84	ASTM D 6413
BS 5438	BS 837 (1996)	DIN 4102-B1

Flammability certificate downloads available at GetTent.com
